*2024–Present
Scholarship at ¡Supérate! ADOC Center

LANGUAGES

- Spanish: Native
- English: Intermediate–Advanced (TOEIC 795)

ABOUT ME

Scholarship student in the ¡Supérate! ADOC program with a strong interest in technology and web development. I stand out for my initiative in developing technology projects and my ability to learn technical tools. I aim to keep building my programming and technology skills to create practical solutions with real impact.

TECHNOLOGY PROJECTS

Parking SV (In development)

Development of a technology platform focused on parking management. Project developed over more than two years using a framework.

Artisan Products Website

Design and development of a functional website using HTML, CSS, and JavaScript.

Online Radio Streaming System

Implementation of streaming through a website. Configuration of Linux Ubuntu, digital tools, and web services.
